

1. KLove reaches me locally through community announcements and on my local translator 91.1 Denver. As I travel into the mountain communities of Colorado I recognize the need for the local translators.
2. KLove is the most wholesome radio available to me and my family would deeply miss KLove's impact if it were displaced by LPFM format radio, especially if LPFM were to take priority over existing FM translators.
3. Denver, and all of the cities KLove serves, pay to support commercial free radio, and all the blessing that come from Christian teaching and ministry. It is in the public's interest that listener supported, commercial free, Christian radio remain a strong part of our local and national interest. Thank you for considering this request to limit the expansion of the LPFM broadcast service in favor of maintaining FM translators.
